SUMMARY

Creative and forward-thinking Adobe Certified Front-End Developer with over 4 years of experience crafting high-performance user interfaces in modern JavaScript frameworks. Specialized in building AI-integrated web experiences, real-time data visualizations, and scalable frontend architecture using React, TypeScript, and TailwindCSS.

Skilled in rapidly prototyping dynamic, responsive UIs for human-AI interaction using OpenAI APIs and multi-agent systems. Demonstrated ability to lead frontend efforts on large e-commerce and SaaS projects, while recently expanding into automation, intelligent assistants, and Salesforce Lightning Web Components (LWC).

A strong collaborator with backend teams and AI engineers, bringing design thinking, clean code, and a user-first mindset to fast-paced startup environments. Actively learning and experimenting with LLMs, prompt engineering, and human-in-the-loop systems.

- Languages & Frameworks: HTML5, CSS3 (LESS, SCSS), JavaScript, TypeScript, React, Next.js, Vue.js, KnockoutJS, PHP
- UI/UX: TailwindCSS, Styled Components, Bootstrap, Responsive Design, Accessibility (A11y), Figma-to-React, Custom Animations
- AI/Automation: OpenAI APIs (chat, TTS), voice assistants, intelligent UIs, prompt engineering, automation with browser APIs
- State & Data Handling: Redux, Context API, REST
- Tooling: Vite, Webpack, npm, yarn, Git, Jira, Notion
- Platforms: Salesforce Lightning Web Components (LWC), Adobe Commerce (Magento 2), WordPress
- Dev Practices: Agile, TDD, component libraries, design systems, GitHub Actions
- Soft Skills: Strong communicator, fast prototyper, collaborative, curious about AI + human behavior

PROFESSIONAL EXPERIENCE

E-commerce Developer | Northern Commerce, London ON

May 2022 - Current

I crafted customized Magento 2 themes and UI components, and developed a comprehensive booking system with knockout widgets, showcasing my technical versatility in Knockout.js, jQuery, Less, PHP, JavaScript, XML, and CSS. My responsibilities extended to managing support fixes and spearheading website redesigns and upgrades, underlining my leadership and problem-solving skills. Notable projects include enhancing product and category pages for Tepperman's and converting Figma designs into Magento themes for Chatters, demonstrating my ability to deliver tailored solutions that elevate user experience. Working with Salesforce LWV and Cloud Commerce, created custom components, controllers and pages for B2C site.

Senior Frontend Developer | Overdose, Ukraine

December 2020 - April 2022

I led the frontend development of Magento 2, focusing on UI components and custom checkout processes. As the frontend development team leader, I was responsible for code reviews, project estimations, and mentoring, demonstrating strong leadership and technical expertise in Knockout.js, jQuery, Less, PHP, JavaScript, XML, and CSS.

PROFESSIONAL EXPERIENCE - Continued

- Euromarc: Enhanced site aesthetics with new styles, led testing, and managed deployment, highlighting my adaptability and attention to detail (Euromarc).

This role emphasized my ability to deliver high-quality, user-centric solutions while fostering a collaborative and growth-oriented team environment.

Frontend Developer | Luxinten, Ukraine

March 2020 - December 2020

Led frontend development of Magento 2 themes and user interface components, leveraging my proficiency in Knockout.js, jQuery, Less, PHP, JavaScript, XML, and CSS. My role involved a collaborative approach, where I actively contributed to code reviews and played a key role in the technical interviewing process for front-end candidates. This position enabled me to hone my technical skills while also emphasizing the importance of teamwork, effective communication, and leadership in a dynamic development environment. Firebase A/B testing.

Frontend Developer | Orot Technologies s.r.o, Ukraine

February 2018 - February 2020

In my role, I specialized in Magento 2 customization, focusing on tailoring default themes to meet unique project requirements. My expertise extended to frontend development, where I leveraged ReactJS and TypeScript to create responsive and dynamic user interfaces, integrating seamlessly with Magento's Rest API. I utilized Styled Components and Storybook for component-driven development, and Redux for state management, ensuring a cohesive and scalable architecture.

ESET Store.

Frontend Developer | Soulmates, Ukraine

March 2017 - February 2018

In this role, I specialized in converting PSD designs into responsive WordPress themes using JavaScript, jQuery, Sass/Scss, PHP, and HTML/CSS. I emphasized collaboration, effective communication, and continuous learning, ensuring high-quality outcomes and team growth.

Junior Frontend Developer | 111Minutes, Ukraine

May 2016 - February 2017

I worked closely with developers to build websites and single-page applications, leveraging JavaScript/ES6, ReactJS, Sass/Scss, and HTML/CSS. I focused on teamwork, clear communication, and adaptability to ensure project success.
